**To:** "Crystal Price" <[tazyshades@gmail.com](mailto:tazyshades@gmail.com)>

\*\*\*\*\* Please DO NOT REPLY to this automated message. Contact information is provided below. \*\*\*\*\*

Thank you for registering for the U. S. Postal Service's Web Tools Application Program Interfaces (APIs). We are providing you with a Username to allow for access to the Production Servers, either through a third party ecommerce shipping software or through direct integration.

Your Username is 340CRAFT3326

Your Password is 520FA08FB748

The URLs you will use for the Production Servers are:

<http://production.shippingapis.com/ShippingAPI.dll>

<https://secure.shippingapis.com/ShippingAPI.dll>

You have been granted standard production access including the below API functionality. Please note that you no longer need to contact the USPS for access to these services:

Price Calculators

Package Tracking

Service Standards and Commitments

Permissions for validating addresses, creating shipping labels, and scheduling Package Pickups are added separately. Should you have an interest in obtaining these permissions or if your software provider requires them, please contact our Internet Customer Care Center ([uspstechnicalsupport@mailps.custhelp.com](mailto:uspstechnicalsupport@mailps.custhelp.com)) and include "Web Tools API Access" in the subject line. An agent will be happy to assist you.

Your Web Tools User ID, shown above, is required to integrate with USPS Web Tools APIs directly or through a software provider. For more details on direct integration, refer to the latest versions of the technical documentation, including the Developer Guide, at <https://www.usps.com/webtools>. If you are using a third party shipping software or shopping cart provider, please refer to their customer service resources for instructions for use, key updates and other support.

Please note that profiles that are inactive for four years will be permanently deleted without notice.

IMPORTANT NOTICE REGARDING USER ID

The Web Tools User ID provided is for you and your company to use when requesting data via the Internet from the U.S. Postal Service API servers. This unique User ID cannot be shared with others outside your organization, nor is it to be packaged and distributed or sold to other individuals, businesses or e-commerce web site entities. As per the Terms and Conditions of Use Agreement you agreed to during the Web Tools registration process, you are responsible to maintain the confidentiality of your User ID as specified. You may not package any APIs with your User ID for resale or distribution to others. The U.S. Postal Service does not prohibit the reuse and/or distribution of the API documentation (User's Guide) with sample code in order to generate awareness, encourage use or provide ease-of-use to customers or affiliates.

Warning - If the U.S. Postal Service discovers use of the same User ID from more than one web site, all users will be subject to loss of access to the USPS production server and/or termination of the licenses granted under the Terms and Conditions of Use.

Thank you for helping the U.S. Postal Service provide new services to our shipping customers.

Sincerely,

The Web Tools Team  
USPS Internet Customer Care Center
